

What is a greenrich battery?

Greenrich batteries offer a superior usable capacity, allowing users to utilise up to 95% of the battery's capacity. The Greenrich battery range is specifically designed to operate optimally in African conditions. The Greenrich batteries utilise EV Tech, which stands for Electric Vehicle Technology, utilising cylindrical cells for energy storage.

Who are greenrich's solar batteries & inverters?

As a leading South African energy storage solution company, we specialise in the production of high-quality energy storage products. Greenrich's Solar Batteries & Inverters offers Versatile Green Energy Solutions for Diverse Needs throughout Africa.

Are greenrich solar batteries & inverters available at Voltex?

Power your sustainable future with Greenrich solar batteries and inverters, available at Voltex! Experience reliable energy storage and seamless power conversion with our premium range solutions.

What are greenrich invertors & battery systems?

The Greenrich range of invertors and battery systems provides diverse options to meet the specific energy storage needs of different applications. Equipped with advanced 1.5C technology, which ensures superior power output performance. They incorporate advanced safety features and protection mechanisms to ensure reliable and secure operation.

Why should you choose greenrich batteries?

Our commitment to progress, excellence and innovation is at the core of everything we do. Greenrich batteries offer a superior usable capacity, allowing users to utilise up to 95% of the battery's capacity. The Greenrich battery range is specifically designed to operate optimally in African conditions.

What is a greenrich u-p6100 battery?

The Greenrich batteries utilise EV Tech, which stands for Electric Vehicle Technology, utilising cylindrical cells for energy storage. U-P6100 offers ample power (9000W) to support a range of energy needs. With a whopping 6123 watt-hours of energy storage. Operating with a consistent discharge rate of 1.5C, this system ensures sustained performance.

Greenrich 5.12kWh Rack Mount - a cutting-edge lithium battery with a remarkable 7.5kW output power. Ideal for residential and commercial applications, this battery ensures outstanding energy storage capabilities.

Mounting : Rack mount type battery . Battery voltage : 51.2V V DC . Designed for residential, commercial / industrial OFF GRID /UPS power systems . Superior product lifespan > 15 years. 10 years warranty, > 6000 cycles life; Parallel ...

The Greenrich WM5000 Lithium Battery Wall Mounted System is a versatile and powerful energy storage solution for residential and small commercial settings. Featuring advanced 1.5C technology, the Greenrich WM5000 delivers enhanced power output and efficiency. Its wall-mounted design ensures easy installation and space-saving benefits.

The battery is rated for up to 1.5C discharge rate, providing a high power output for even the most demanding applications. This battery is also equipped with a built-in battery management system, which ensures optimal performance and ...

Mounting : Rack mount type battery . Battery voltage : 51.2V V DC . Designed for residential, commercial / industrial OFF GRID /UPS power systems . Superior product lifespan > 15 years. 10 years warranty, > 6000 cycles life; Parallel capability of 15 batteries = 75 kWh of OFF GRID STORAGE CAPACITY . Battery Capacity : 5.12 kWh

Greenrich Battery Cabinets - X4 Batteries with Front Cover. this stand will house up to 4 batteries, keeping them off the floor and protecting them from debris and damage, particularly in high traffic areas. Click [HERE](#) for our Solar Batteries

The Greenrich WM5000 Lithium Battery Wall Mounted System is a versatile and powerful energy storage solution for residential and small commercial settings. Featuring advanced 1.5C technology, the Greenrich WM5000 delivers ...

Greenrich Battery Cabinet stand 7 units. Working Voltage: 24Vdc Working Temperature Range: -30~75°C Working Humidity: 5%~95% 485 communication: 5 ways @Modbus Ethernet communication: 3 ways @TCP/IP CAN Communication: 2 ways CAN 2.0B Dry Contact: 9 ways @5 ways output. 4 ways input Temperature Detection Range: -40~120°C

The battery is rated for up to 1.5C discharge rate, providing a high power output for even the most demanding applications. This battery is also equipped with a built-in battery management system, which ensures optimal performance and safety.
