Spanish company Enerland Group unveils plans to build Magdalena Solar, a 66 MWp photovoltaic park, marking its entry into Guatemala's renewable energy sector. The project aims to generate 141 GWh annually, contributing to the country's energy transition.

The original owners of the Green Solar project approached BMR seeking financial investment. As part of its evaluation process, BMR determined that the solar farm offered a strong return that was supported by Guatemala's well-established and stable regulatory system.

Ofrecemos desde la instalaci&#243;n de sistemas fotovoltaicos conectados a red hasta soluciones personalizadas de bombeo solar para agua potable y riego, nuestro enfoque integral abarca tambi&#233;n el asesoramiento en eficiencia energ&#233;tica.

Low-carbon energy infrastructure developer MPC Energy Solutions (MPCES) announced today the start of construction works on a 65-MWp solar project in Guatemala, the largest project in its portfolio so far.
