

GudE Potencia Battery Energy Storage System (BESS) is designed based on high performance Lithium Iron Phosphate (LFP) Battery and integrated with intelligent Battery Management System (BMS), Thermal Management System (TMS), Balance of System (BoS), etc. to ensure high safety and reliability to be applied to renewable energy power system and ...

4-, 8- or 12-fold switched PDU with energy monitoring per power port Features o Up to 12 Power Ports individually switchable directly on the device, via HTTPS, SNMP, command line tool and ...

Hangzhou Gude Power Co., Ltd. (Briefly under the brand name "GudE Potencia",) was established in 2021 by a group of professionals with over 20 years" experience in battery and energy storage industry, GudE Potencia is specializing in providing reliable energy solutions to global markets supported by our expertise and deep understandings of ...

Established in 2021 by a group of professionals with over 20 years" experience in battery and energy storage industry, GudE Potencia is specializing in providing reliable energy solutions to global markets supported by our expertise and deep understandings of batteries and energy storage systems.

When Crestron began to look for the most efficient way to bring quality power controllers to the European market, they found an outstanding partner in GUDE. This German manufacturer shares some of Crestron"s fundamental values: ...

4-, 8- or 12-fold switched PDU with energy monitoring per power port Features o Up to 12 Power Ports individually switchable directly on the device, via HTTPS, SNMP, command line tool and RS232 serial interface o Status and Power-up delay (0...9999 seconds) adjustable individually for each Power Port after power blackout

The smart Power Distribution Unit (PDU) is the perfect IP power solutions when it comes to intelligent device management increased resilience of AV and IT and infrastructures. In a standard 19 inch rack with customers" applications running on servers, the PDU enables reliable power distribution as well as capacity and system monitoring in

When Crestron began to look for the most efficient way to bring quality power controllers to the European market, they found an outstanding partner in GUDE. This German manufacturer shares some of Crestron"s fundamental values: Creating products that are easy to integrate, easy to use, and incredibly reliable.

The smart Power Distribution Unit (PDU) is the perfect IP power solutions when it comes to intelligent device management increased resilience of AV and IT and infrastructures. In a ...
