

Hayleys Solar, the renewable energy arm of Hayleys Fentons Limited announces its Silver award win at Dragons of Sri Lanka, part of the esteemed Dragons of Asia 2024, for its flagship campaign "Live a Life Full of Light".. This accolade highlights Hayleys Solar's dedication to excellence in marketing communications and its mission to promote renewable ...

According to Perera, Hayleys Solar offers a 25-year warranty on their solar systems, ensuring support to their clients for the next quarter-century. Backed by over 145 years and 104 years of brand heritage from Hayleys PLC and Fentons, Hayleys Solar provides a unique level of stability and confidence that distinguishes them from other companies.

Hayleys Solar, the renewable energy arm of Fentons Ltd, is the number one solar provider in Sri Lanka. Its Director & Chief Executive Officer (CEO), Roshane Perera recently sat down with the Sunday Times to discuss this milestone, the way forward and the renewable energy industry in Sri Lanka.

By integrating solar systems with generators or large-scale lithium-ion batteries, Hayleys Solar ensures uninterrupted power supply even during outages, reducing dependency on the grid and eliminating the need for diesel generators.

With 250MW under Hayleys Solar, the company is the largest solar EPC (Engineering, Procurement and Construction) among registered solar EPCs in Sri Lanka. As the nation approaches its 2030 renewable goals, Hayleys Solar aims to expand its share, playing a critical role in the energy transition.

Hayleys Solar, the premier renewable energy arm of Hayleys Fentons, a subsidiary of the country's leading conglomerate Hayleys Group, proudly announces a significant milestone of achieving a staggering 200MWp rooftop solar PV capacity in Sri Lanka. This remarkable accomplishment stands as the largest of its kind carried out by a single entity ...

Hayleys Fentons have branded our solar arm as "Hayleys Solar", taken the reigns to become an industry leader in rooftop solar installations. Being a part of this much-needed change in power generation, which is geared towards sustainable solutions. In 2011, Hayleys Fentons took up another challenge by embarking on a journey
