This new electricity storage facility will use Alfen's latest battery technology. The batteries are delivered in smaller and more flexible outdoor units instead of the traditional large marine containers.

Drawing on over five years of expertise in mobile battery storage backed by more than 85 years of innovation in the electricity grid, Alfen has developed a solution that meets the growing demand for temporary clean power supply across a wide range of applications.

"In 2021 we successfully launched the first large-scale battery energy storage system together with Alfen," said Dennis Schiricke, CEO of SemperPower. "Since then, local system operators have seen explosive growth in requests to connect battery energy storage systems to their grids.

Alfen's energy storage solutions are underpinned by two key products: TheBattery Elements and TheBattery Mobile. These products are tailor-made for different markets and applications but based on the same design principles to guarantee optimal performance, flexibility, modularity and ...

Dutch solar park developer Solarfields premiered its Zonnepark Bontepolder facility in early 2023 with nearly 32,000 solar panels, accompanied by Alfen's battery storage technology to capture and distribute the carbon-free power they generate.

Haiti alfen battery storage

Drawing on over five years of expertise in mobile battery storage backed by more than 85 years of innovation in the electricity grid, Alfen has developed a solution that meets the growing demand for temporary clean power supply across a ...
