

Heard and McDonald Islands vertical storage solutions

Where are Heard Island and McDonald Islands located?

The islands are a territory (Territory of Heard Island and McDonald Islands) of Australia administered from Hobart by the Australian Antarctic Division of the Australian Department of Climate Change, Energy, the Environment and Water.

How big is Heard Island & McDonald Islands?

The group's overall land area is 372 km² (144 sq mi) and it has 101.9 km (63 mi) of coastline. Discovered in the mid-19th century, the islands lie on the Kerguelen Plateau in the Indian Ocean and have been an Australian territory since 1947. Heard Island and McDonald Islands contain Australia's only two active volcanoes.

Where can I find information about volcanic activity on Heard Island and McDonald Islands?

More information is available from the Global Volcanism Program which has regularly updated information about volcanic activity on both Heard Island and McDonald Islands. Heard and McDonald Islands Information about Australia's remote territories - Heard and McDonald Islands.

Why are McDonald Islands so difficult to get to?

The rough terrain of cliff-lined coasts and rocky shoals also make access to the islands from the sea very difficult. As a result, only two successful landings have been made on McDonald Islands in 1971 and 1980. Visits to the easier to access and larger Heard Island for scientific research have been much more frequent. Big Ben, Heard Island.

Is Heard Island a subantarctic island?

The fauna of the freshwater pools, lakes, streams and mires found in the coastal areas of Heard Island are broadly similar to those on other subantarctic islands of the southern Indian Ocean. Many species reported from Heard Island are found elsewhere.

Does Heard Island have volcanic activity?

Volcanic activity has occurred on Heard Island since the mid 1980s, and activity on McDonald Islands, approximately 43 kilometres to the west, occurred recently during the 1990s. The activity on the McDonald Islands group resulted in the island doubling in size and increasing in elevation by about 100 metres.
