Is Hello solar a good company?

Hello Solar made it easy and explained everything clearly. I was a little worried at the start reading through the reviews but when seeing how long they have been in business and the amount of installs completed, I gave them a shot! Very pleased, happy with the process and would highly recommend to any of my friends. Good work. Show details

Did Hello solar deliver what they promised?

Hello Solar delivered what they promised! From the time of acceptance of their quote, everything went through as scheduled. Installation crew were very professional, turned up on time and completed all works efficiently. Correspondence with the energy retailer were copied to us to keep us in the loop. Would not hesitate to recommend Hello Solar!.

Is Hello solar in breach of contract?

The completed install was way overdue and Hello Solar were in breach of contract. No apology, just running away as fast as they could with exception of the tech support person. My best advice ... use anyone but Hello Solar.

Don't make use of this company, company owner/ director named Jonothan Clive Stephenson is a fraudster, he takes your money and doesn't deliver the service promised, do a search for "we drill africa" and "solar bay" or even just search his name on google and you find poor reviews and judgements against him, after paying him a deposit over a year ago to have a solar system ...

Most of the reviews were new and from accounts with only 1 or 2 reviews (some of the themes even had upwards of 40-50 reviews). And the ones with 2 or more reviews their other reviews in San Diego, India, and other locations far from Pitcairn Island. Can someone help me figure out what's with them, Thanks

Henderson Island is an uninhabited uplifted coral island in the south Pacific Ocean, annexed to the Pitcairn Islands colony in 1902. It is located 193 km northeast of Pitcairn Island. Henderson Island was designated a World Heritage Site by the United Nations in 1988 because of its bird life and untouched phosphate reserves.

Discovery of Pitcairn Island . Captain Philip Carteret first spotted Pitcairn Island in 1767 but couldn't land due to rough seas. He miscalculated its location, marking it miles away from its true position. Years later, Captain Cook showed some interest, but it wasn't until the Bounty mutineers arrived in 1790 that the island gained attention.

Outstanding, I had to post a review of my solar installation, I couldn't be happier, Hello sun is a great local business, the cost, speed and quality of the install was top notch, they removed an old dead system, and put in new 6.6kw system at a great price we went from a \$900 bill to an \$8 credit on our first bill.
