Jamaica renewable energy company

22 ????· As Jamaica stands at the crossroads of its energy future, the call for fairness, resilience, and sustainability is louder than ever. The impending expiration of the Jamaica Public Service Company (JPS) monopoly presents ...

1 ??· Jamaica"s future lies in renewable energy. Solar, wind, hydro, and farmed biomass offer not just environmen­tal benefits but also energy security. Decentrali­sed grids, powered by these sources, can reduce reliance on a single provider and improve disaster resilience. The JPS must be invited to be part of this transition.

Xavier Barbaro is the Company's Chairman and Chief Executive Officer. He started his career at Louis Dreyfus Communication s (later known as Neuf Cegetel) in Paris in 2001, before joining Louis Dreyfus Commodities in Geneva as Attaché to the CEO, where he was in charge of the business plan and carried out several projects in Asia. He then joined Direct Energie in 2007 ...
