

What types of batteries does Jauch offer?

Today, we offer a wide range of primary lithium batteries and rechargeable battery systems. Many of our batteries are available directly from stock. Customized battery systems with a battery management system. Jauch provides complete solutions for your battery system according to your requirements.

Where are Jauch batteries made?

Manufacturing in Villingen-Schwenningen Jauch production in Villingen-Schwenningen: Customized battery packs for medical or safety technology or the automotive industry, for example, where special requirements often have to be met, are manufactured here in ESD-protected rooms.

What solutions does Jauch offer?

Jauch provides complete solutions for your battery system according to your requirements. Standard cells and customized packs, from simple cells to intelligent battery packs for the most demanding applications.

Individual Solutions We take care of special requests for design-in as well as all relevant safety aspects.

Is Jauch a good supplier?

"The collaboration with Jauch is very positive. With Jauch, we have found a reliable and competent supplier of crystals who consistently meets our quality and on-time delivery requirements. The smooth communication and technical expertise of Jauch confirm our choice." - Andreas Schimpf, Supply Chain Manager at TireCheck.

Whether a standard product or individually tailored special solution with battery management system, Jauch's battery experts deliver the right solution for almost all requirement profiles. The in-house test center also guarantees compliance with all ...

We are proud to be showcasing our innovative battery solutions, from highly customizable lithium ion and lithium polymer cells, high-energy-density lithium thionyl chloride batteries to our own branded coin cells. Visit our team in hall 5, stand N69 to learn more about our battery solutions and the frequency control products.

Jauch Battery Solutions o Reliable energy for your application o Standard cells and customized packs o ESD protection o Battery Certification Experts SPECIFICATIONS CHARGING CHARACTERISTICS PER BATTERY PACK Cell Used LI ICR18650-26 1s1p Charge Voltage 4.2 V Jauch No. 243128 Standard Current 0.5 C ...

and battery designs/specifications are subject to modification without notice. Contact JAUCH for the latest information. Jauch Battery Solutions - Reliable energy for your application - Standard cells and customized

Jauch battery solutions Taiwan

Jauch Battery Solutions o Reliable energy for your application o Standard cells and customized packs o ESD protection o Battery Certification Experts SPECIFICATIONS CHARGING CHARACTERISTICS PER BATTERY PACK Model LI18650JLS HB 1S2P Charge Voltage 4.2 V Jauch No. 250480 Standard Current 1300 mA ...

Whether a standard product or individually tailored special solution with battery management system, Jauch's battery experts deliver the right solution for almost all requirement profiles. The in-house test center also ...

We are proud to be showcasing our innovative battery solutions, from highly customizable lithium ion and lithium polymer cells, high-energy-density lithium thionyl chloride batteries to our own ...

Die hohe Leistungsleistung von Lithium-Ionen-Batterien führt zu immer neuen Anwendungsgebieten. Man findet sie heutzutage beispielsweise in Mobiltelefonen, Laptops, Tablets, Kameras, Staubsaugern, Werkzeugen, Fahrzeugen oder in sogenannten Storage-Anwendungen - große Energiespeicher für die Speicherung der Energie aus Solarzellen.

Jauch Battery Solutions o Reliable energy for your application o Standard cells and customized packs o ESD protection o Battery Certification Experts SPECIFICATIONS CHARGING CHARACTERISTICS PER BATTERY PACK Cell Used LI18650JLS HB 2S1P Charge Voltage 8.4 V Jauch No. 250481 Standard Current 650 mA ...

Jauch offers a comprehensive range of services in order to provide you the best batteries for your applications, including cell selection, safety electronics, battery management system and ...

Jauch Group is currently one of the leading companies in the field of variable frequency control products and a mature expert in emerging markets for lithium-ion and lithium polymer batteries. Jauch product application areas: consumer electronics, automation products, medical products, safety technology products, power tools, transportation and ...

Jauch Battery Solutions o Reliable energy for your application o Standard cells and customized packs o ESD protection o Battery Certification Experts SPECIFICATIONS CHARGING CHARACTERISTICS PER BATTERY PACK Model: LP802036JU Charge Voltage 4.2 V Jauch No. 248862 Standard Current 0.2 C (100 mA) ...

Jauch lithium polymer batteries are suited to both the electrical industry and medical technology. Sizes and dimensions can be manufactured according to customer specifications. Home; Contact; ... The capacity of a lithium battery is reduced over time even without use, mainly because of the reaction of lithium with the electrolyte. ...

As a leading expert in battery technology, Jauch offers an impressive portfolio of battery solutions for various applications. Let's dive into the details: » Lithium ion batteries: They are characterised by high energy density, rechargeability and versatility in mobile devices and new applications, and are equipped with a protection circuit ...

Jauch produces complete solutions for battery systems and frequency control products which are available around the world. WELCOME TO JAUCH! Please select your region and language for a perfectly tailored experience on our website.
