

What is the outlook for solar energy in Jordan?

Looking ahead, the outlook for solar energy in Jordan is positive. According to a report by the International Renewable Energy Agency (IRENA), Jordan is expected to increase its solar energy capacity to 2.7 GW by 2023, up from 1.7 GW in 2020.

Does Jordan have a solar energy policy?

Jordan has implemented several policies to encourage the growth of solar energy in the country. In 2012, the government introduced a feed-in tariff system that offers a fixed rate for solar energy producers to sell their electricity to the grid.

What is the solar energy potential in Jordan?

The solar energy potential in Jordan is enormous as it lies within the solar belt of the world with average solar radiation ranging between 5 and 7 KWh/m², which implies a potential of at least 1000 GWh per year annually. Solar energy, like other forms of alternative energy, remains underutilized in Jordan.

Will Jordan increase its solar energy capacity by 2023?

According to a report by the International Renewable Energy Agency (IRENA), Jordan is expected to increase its solar energy capacity to 2.7 GW by 2023, up from 1.7 GW in 2020. This represents a significant increase in solar energy capacity and is expected to help reduce Jordan's reliance on imported fossil fuels.

What percentage of Jordan's electricity is generated by solar energy?

Currently, solar energy accounts for around 5% of Jordan's electricity generation capacity. This is relatively low compared to other countries in the region, such as the United Arab Emirates and Saudi Arabia, which have made significant investments in solar energy.

Could rooftop solar power be the future of energy in Jordan?

According to the IRENA report, rooftop solar installations could account for up to 1.4 GW of solar energy capacity in Jordan by 2030. This presents an opportunity for households and businesses in the country to generate their own electricity and reduce their reliance on the grid.

6 ???· AMMAN -- The Jordan Press Foundation (JPF), which publishes The Jordan Times and Al Rai daily, and the Energy and Minerals Regulatory Commission (EMRC) on Monday ...

AMMAN -- The foundation stone for a 52-megawatt (MW) solar photovoltaic power plant, dubbed "AM Solar", was laid on Wednesday at a total cost of \$50 million, in the Madounah area in eastern of Amman. The plant is a joint venture between US Applied Energy Services-Jordan, the Japanese conglomerate Mitsui and Qatar's Nebras Power, on a build, ...
