

Which countries install solar panels in Latvia?

Estonia, Finland, Latvia, Lit... List of Latvian solar panel installers - showing companies in Latvia that undertake solar panel installation, including rooftop and standalone solar systems.

Does Latvia have solar energy?

So far, however, the development of solar energy in the country has been rather limited. According to Latvia's grid-operator Sadales tīkls AS, which is a subsidiary of Latvenergo, there was just 1.3 MW of renewable energy power installed under net metering at the end of 2016.

How long do solar panels last in Latvia?

Solar panels require almost no maintenance during their lifetime. In addition, rain cleans the surface of the panels well. The payback period for correctly adapting to the consumption of solar panels is 4-7 years. Why are more and more people in Latvia installing solar panels and inverters?

How much sunlight does Latvia receive a year?

In our climate, one square meter of surface receives an average of 1200 kWh per year from the sun. The duration of direct sunlight in Latvia exceeds 1800 hours. The new type of solar panels produces energy with the so-called scattered radiation, which exists around us for 4000 hours.
