

Libya battery and solar panel kit

Who are insiab Libya solar?

Insiab Libya Solar pride themselves on the professional standard of their installations using world class electronics, installed by highly trained engineers. In other projects they secure the power for telecoms networks, and for Internet Service Providers - ensuring that Libya's utilities benefit from full up-time.

How has solar energy changed hospitals in Libya?

All that has now changed in fifteen important hospitals thanks to solar based energy installations carried out by the country's largest solar power installer. The project was funded by the UNDP, the contractor is Gsol Energy and their partner in Libya Insiab. Ubari General Hospital has a typical installation and benefits from:

Will 3000 streetlamps be installed in Libya?

A project to install a further 3000 streetlamps in Libya is underway. Students from the Institute of Electrical and Electronics Engineers (IEEE) facility in Tripoli University enjoyed a site visit hosted by Insiab to one of the 15 systems in Tripoli.

What does insiab do for Libya?

In other projects they secure the power for telecoms networks, and for Internet Service Providers - ensuring that Libya's utilities benefit from full up-time. Insiab are passionate about encouraging the Libyan government - a country rich in oil - to take advantages of solar.

Are Libyan hospitals able to provide a standard of care?

Fifteen large hospitals in Libya - all of which are state-owned - are now able to provide the standard of patient-care they would wish, thanks to reliable power. The electricity grid in Libya suffers from frequent blackouts and brown-outs with the network voltage often falling from 220V to 170V.

?Ready to Install?
