

Liechtenstein kijo battery

Who is Kijo Battery Company?

Kijo Group is a professional energy storage battery company that integrates science, industry, and trade with production capacity. We have 30 years of expert experience and four production bases in China, and we also possess more than 400 middle and senior technical personnel. Please click to get the KIJO battery price!

Which is the best Kijo battery?

The comprehensive strength of KIJO is the best in the industry, as a well-known AGM (Absorbent Glass Mat Battery), GEL, Deep Cycle, Lead Carbon, OPzV battery, OPzS battery, Lead Acid batteries, and Lithium batteries for all kinds of industrial applications like Solar System, UPS system, Telecom, Data Centers, Rail Transit, Motive Vehicles, etc.

What certifications does Kijo battery have?

KIJO battery has passed ISO9001, ISO14001, ISO16949 system certifications and its products comply with international certifications such as IEC, UL, CE, FCC, C-Tick, PSE, RoHS, etc. KIJO Group is a professional power battery factory in China, which is committed to offering better battery solutions to clients all over the world.

What is Kijo G series lithium-ion battery?

The KIJO G Series Lithium-ion Battery stands out as a game-changer, offering a plethora of advantages that cater specifically to the unique needs of HAPVs. Recently, KIJO Group announced that its Manufacturing Execution System (MES) has been partially online, marking a solid step forward for the group in the field of smart manufacturing...

What is a kijo reserve power battery?

Network power products such as Telecom and UPS batteries produced by KIJO are widely used in communication networks and data centers at all levels. Reserve power battery is the ideal solution for the needs of electronics, renewable energy, and other fields where uninterrupted power is essential.

What certifications does Kijo have?

Kijo has passed the ISO9001 quality system, ISO14000 environmental system certification, ISO16949 automotive industry system certification, and so on. Our batteries are exported to Southeast Asia, the Middle East, Africa, Europe, and America, and are well received with wide acclaim from customers all over the world.

Founded in 1993, KIJO battery Group is a professional battery manufacturer integrating science, industry, and trade. KIJO has a production capacity of over 30 million units and an output ...

JM series battery is specially designed for UPS systems, emergency power, and security system applications. Using a thick plate and high corrosion resistance grid alloy, matching with a high ...

Whether it's for consumer electronics, electric vehicles, or energy storage systems, KIJO GROUP offers a comprehensive selection of lithium-ion batteries to meet the evolving needs of the market. As a professional lithium-ion battery manufacturer, KIJO GROUP places a strong emphasis on quality and reliability.

JM series battery is specially designed for UPS systems, emergency power, and security system applications. Using a thick plate and high corrosion resistance grid alloy, matching with a high-impact AGM separator, the battery maintains high consistency for better performance and reliable standby service life.
