

INERGY Solutions est une société qui s'est spécialisée dans l'énergie solaire & Madagascar depuis plusieurs années. Aujourd'hui, partenaire avec plusieurs marques de renommée mondiale dont VICTRON ENERGY, nous nous ...

Madagascar: Energy intensity: how much energy does it use per unit of GDP? Click to open interactive version. Energy is a large contributor to CO₂ - the burning of fossil fuels accounts for around three-quarters of global greenhouse gas emissions. So, reducing energy consumption can inevitably help to reduce emissions.

Betting on Solar Energy. With all regions of Madagascar enjoying over 2,800 hours of sunlight per year, the Grande Ile is the perfect location for development of solar power, with a potential capacity of 2,000 kWh/m²/year. The Government is counting on this potential to fulfill its objective of providing energy access to 70% of Malagasy ...
