

# Magnet plus solar panel generator

How do I set up a solar generator?

Setting up a solar generator means combining a power station and solar panels. When Jackery Portable Power Station and SolarSaga Solar Panels are combined, it becomes a complete solar generator kit that can charge all your small and large electrical devices. The solar panels are easy to install, and you can set them up within 60 seconds.

How does a solar generator work?

A solar generator works by capturing solar energy with solar panels and storing it in a solar battery or portable power station. Jackery solar generators are a combination of solar panels and portable power stations that convert sun energy into electricity.

What are the benefits of solar power generator?

The solar power generator is incredibly durable and long-lasting. SolarSaga Solar Panels can work efficiently from 14-149°F (-10-65°C), and the working temperature of the power station is 14-104°F (-10-40°C). IP68 waterproof rating solar panels, makes it suitable for rainy days and humid environments.

What is a Jackery solar generator?

With industry-leading 25% solar efficiency and quick charging power, the Jackery Solar Generator Pro Series is ideal for powering all your small and large appliances. Whether you're planning to enjoy RV life, boat living, off-grid living, camping, or home backup, the solar power charging station can power all your gear fast.

What is a solar backup generator?

With the MPPT and IBC solar technology, the solar backup generator supports continuous and stable charging even during cloudy days and high temperatures. It is a renewable, clean power source with zero fuel cost.
