

Which solar projects are being developed in Malawi?

InfraCo Africa, JCM Clean Power Development Fund (JCM), and a local developer, Matswani, recently co-developed the 60 MW Salima Solar project. The PV plant is situated 75 km east of Malawi's capital, Lilongwe, and is now delivering to Malawi's national grid. The Golomoti solar plant is another recent addition.

Where is Malawi's first solar power plant located?

The centrally located facility is Malawi's first solar power plant connected to the national grid, a project successfully completed under a public-private partnership (PPP). The President of the Republic of Malawi Lazarus McCarthy Chakwera visited the Salima district, 101 km from the capital Lilongwe, on November 16, 2021.

Is Malawi a good place to invest in solar energy?

"Salima Solar is the first solar PV plant in Malawi to be connected to the national grid. As such, it is a model for future projects in several ways... In particular, it demonstrates that Malawi is an attractive destination for private sector investment in energy," says President Lazarus McCarthy Chakwera at the plant's inauguration ceremony.

What is delivering power to Malawi's national grid?

This is another welcome development that is now delivering some much-needed power to Malawi's national grid. The Golomoti solar plant is the first utility scale plant in Malawi that is integrated with a battery energy storage system.

C'est un partenariat stratégique essentiel pour développer le projet de parc solaire de Nkhoma Deka au Malawi. Les sociétés Solarcentury Africa et Renewable Energy Services Africa (RESA), dont les siéges sociaux ...

Nkhoma Deka Solar Power Station is a planned 50 MW (67,000 hp) solar power plant in Malawi. The solar farm is under development by a consortium comprising Solarcentury Africa (SOCA), headquartered in London, United Kingdom and Renewable Energy Services Africa (RESA), domiciled in Cape Town, South Africa. This power station is part of Malawi's efforts to increase installed national generation capacity from 400 MW, in 2021 to 1,000 MW by 2025.
