

Our solar container can be tailored to suit a wide range of needs, from adjusting capacity and storage to integrating additional components for specific applications. Whether you need to power a small off-grid operation or a larger, more complex project, we provide flexible solutions that can be modified to match your exact specifications.

The Frame-Watt TM is easy to remove and fold up (in adverse weather conditions) on a 20-foot container. It was for this reason that Tri-Center chose it as an autonomous supply solution for their container used to collect PET bottles. Frame-Watt TM solar frames have a capture power of 3.6 kWc (minimum) or 4.8 kWc.

There is no shortage of ports and container terminals through which you can receive imported equipment in Martinique. The Island is also home to several dependable logistics and forwarding service providers. Therefore, it is pretty easy to deliver solar equipment to any project site in Martinique from any part of the world.

En Martinique, o^u les conditions climatiques favorisent l'utilisation de l'énergie solaire, une installation photovoltaïque bien dimensionnée peut non seulement couvrir vos besoins en électricité; mais également générer un surplus, ouvrant la voie à l'autoconsommation et la vente de l'excédent d'énergie.

En Martinique, o^u les conditions climatiques favorisent l'utilisation de l'énergie solaire, une installation photovoltaïque bien dimensionnée peut non seulement couvrir vos ...

Alongside the Group's thermal biomass activity, Albioma operates a fleet of photovoltaic power plants in Martinique. All were built in areas free from conflicts of use, either on the ground (Lassale) or on the roof of residential properties ...

Solar equipment production and supply in Martinique is still at an all-time low even though its solar sector is growing steadily. Nevertheless, you can easily import any solar equipment you may need from established markets such as China and the USA.

Grâce aux Packs Solaires Photovoltaïques de Syrius Martinique, vous avez le contrôle de l'avenir de l'énergie. Que vous cherchiez à réduire vos factures d'électricité, à adopter une approche ...

Alongside the Group's thermal biomass activity, Albioma operates a fleet of photovoltaic power plants in Martinique. All were built in areas free from conflicts of use, either on the ground (Lassale) or on the roof of
