How much does a EP Cube battery cost?

Our solar experts estimate the EP Cube battery costs \$15,200 before incentives, just below the industry average cost. Canadian Solar offers the EP Cube Lite, which comes at a lower price point and does not have backup capabilities but is designed to maximize energy savings in areas with time of use rates.

How many kilowatts can a EP Cube store?

The EP Cube energy storage system can store up to 19.9 kilowatt-hours of energy, comes with an integrated inverter, and can be installed with or without solar. Let's take a closer look at everything Canadian Solar's EP Cube has to offer.

Does EP Cube Lite provide backup power?

The EP Cube Lite was designed with California's Net Billing policy in mind. Although it can't provide backup power, it can help combat time of use pricing and low solar buyback rates, saving homeowners more money. If having access to energy during a power outage is your main concern, opt for the EP Cube instead. How much does the EP Cube cost?

What is a EP Cube Lite?

The EP Cube's modular design is a huge draw, as you can customize the size based on your energy needs. The 6.6 kWh capacity EP Cube Lite is great for homeowners who just want to avoid time-of-use rates, while the 19.9 kWh EP Cube can keep key appliances running throughout a prolonged power outage.

What is EP Cube used for?

Die EP Cube-Batterien sind modular strukturiert. Jedes Batteriemodul kann 3,33 kWh Energie speichern und wiegt ca. 35 kg, was den Transport und die Installation erleichtert. Das stapelbare modulare Design bietet eine Energiekapazität von 6,6 kWh bis 19,9 kWh. Damit ist es vielseitig und eine breite Palette des Haushaltsstrombedarfs einsetzbar.

The EP Cube hybrid inverter allows up to 16A per PV string current, and supports up to 4 MPPT connections, enabling greater PV panel connectivity so as to transform more solar energy into electricity for energy storage. EP Cube helps you store electricity from the grid when the price is lower, reducing costs and realizing automatic storage.

Batería Canadian Solar EP CUBE 6,6kWh Una solución completa con una flexibilidad inigualable. El sistema de almacenamiento de energía residencial EP CUBE integra de manera estética y compacte un inversor híbrido, SAI y módulos de batería ligeros y apilables mediante conectores plug & play, ofreciendo un amplia gama de posibilidades para cada hogar.
