

Mauritius sunlink pv

Does Mauritius have solar power?

The construction of big solar power plants all across the island demonstrates Mauritius' dedication to the transformation of solar energy. The 2 MW Anahita Solar Farm and the 20 MW Solitude Solar Park are notable solar projects. These solar power facilities use the region's abundant sunshine to produce clean electricity on a large scale.

Why is Mauritius leading a solar energy revolution?

The nation has embraced the revolutionary potential of solar energy due to its beautiful landscapes and plentiful sunlight. Mauritius is leading a solar energy revolution as 2023 comes to a close, utilizing cutting-edge technology and progressive legislation to create a greener and more sustainable future.

Does Qair Group operate solar energy farms in Mauritius?

Qair Group already operates three solar PV and wind energy farms in Mauritius with a combined capacity of 35 MW. The group founded by Jean-Marc Bouchet has a combined renewable energy capacity of 860 MW operational in Africa, South-East Asia, South America, and Europe.
