

Natron company St Kitts and Nevis

Where is Saint Kitts and Nevis located?

Saint Kitts and Nevis is a two-island country in the West Indies. Located in the Leeward Islands chain of the Lesser Antilles, it is the smallest sovereign state in the Americas, in both area and population. The country is a Commonwealth realm, with the British monarch (currently King Charles III) as head of state.

Who makes Natron batteries?

Build America. Buy America. With products sourced from minerals readily available in the U.S. and manufactured in Michigan, Natron Energy is a U.S. company that meets BABA requirements. The Power of Blue. The secret behind Natron's sodium-ion batteries is our patented use of Prussian blue electrodes.

Will Natron Energy meet growing demand?

As more and more companies discover the difference our unique technology can make both to their ESG compliance and their bottom line, Natron Energy will continue to meet growing demands as we also expand into new and exciting industries. Have questions?

What makes Natron batteries so powerful?

The Power of Blue. The secret behind Natron's sodium-ion batteries is our patented use of Prussian blue electrodes. Prussian blue, when combined with sodium ions, creates a chemistry that delivers super-fast charging and power delivery, with no friction. It's that lack of friction that enables our batteries to last much longer (over 50,000 cycles).

Why is Natron a UL rated battery?

An Industry First. In 2020, Natron became the world's first sodium-ion battery to achieve a UL 1973 listing for our battery. It was an achievement that allowed us to begin commercial shipments to customers in the data center, forklift, and EV fast-charging markets.
