

New Caledonia qmb energy

What is PT QMB new energy materials?

PT QMB New Energy Materials is one of the first high pressure acid leaching (HPAL) projects to be constructed in Indonesia. The project is developed by majority owner Jingmen GEM and Guangdong Brunp. It is located in the Indonesia Morowali Industrial Park (IMIP).

What is New Caledonia Energy?

New Caledonia Energy is the entity responsible for developing the project for the new power station that will supply the energy for Société Le Nickel (SLN). The current power station is nearly 50 years old and is highly polluting. The ultimate goal is to have a carbon-neutral plant by 2030, which would be a world first in the mining sector.

Where are Huayue nickel & cobalt & PT QMB new energy materials located?

Both Huayue Nickel & Cobalt (HNC) and PT QMB New Energy Materials are located within the Morowali Industrial Park (IMIP), which first started operating in 2015, producing nickel pig iron (NPI), and stainless steel.

Who backed QMB new energy materials & tsingshan?

GEM Co. has backed a separate \$1.6 billion facility nearby, QMB New Energy Materials, with Contemporary Amperex Technology Co. Ltd's Brunp unit and Tsingshan again. The world's largest nickel producer, Tsingshan had a prominent role in last year's historic market squeeze.

Who owns PT QMB & IMIP?

These two facilities are owned and operated by PT QMB New Energy Materials (a joint venture of several large recycling companies from China), IMIP, Japanese company Hanwa, and PT Huayue Nickel and Cobalt. Their investments jointly make up over \$2 billion out of the total \$8 billion invested in the park thus far.

Is QMB a HPAL plant in Indonesia?

And QMB is now operating, along with Indonesia's two other recently commissioned HPAL plants, Huayue Nickel and Cobalt (HNC) and PT Halmahera Persada Lygend. The usual phases of development, namely feasibility, approval, construction and commissioning have taken place in record time.
