

New Zealand green planet solar

Is going solar a good idea in New Zealand?

Going solar helps the environment - it creates clean, green energy and is a great way to reduce your carbon footprint. Going solar demonstrates your commitment to sustainability and will help New Zealand achieve its target of net zero greenhouse gas emissions by 2050. Is your property suitable for solar?

Does New Zealand have solar power?

Solar power in New Zealand is increasing in capacity, despite no government subsidies or interventions being available. As of the end of April 2024, New Zealand has 420 MW of grid-connected photovoltaic (PV) solar power installed, of which 146 MW (35%) was installed in the last 12 months.

How can solar power help New Zealand?

We're working with the sector on New Zealand's renewable energy and low-emissions transition. We're responsible for the governance and regulation of New Zealand's electricity industry. Solar power can help you become more self-sufficient, reduce your carbon footprint and reduce your energy costs.

How much will New Zealand's emissions fall by 2035?

The full Green Party package would see net emissions fall 35 percent by 2030, and 47 percent by 2035, on 2020 levels, the party claimed. Under the Paris Agreement, New Zealand committed to cutting its net emissions by 50 percent from gross 2005 levels, by 2030. The government's draft emissions reductions plan was released in July.

Could solar power be the future of New Zealand's electricity grid?

This decrease in cost - which is expected to keep falling - means that solar may potentially play a stronger role in our electricity grid as electrification intensifies. Forecasts suggest Solar PV could make up 6% of New Zealand electricity supply by 2035. Explore solar installation data | Electricity Authority

What is the average solar power system size in New Zealand?

For new installations added in December 2023, the average residential system size was 6.1 kW and the average commercial system was 46.9 kW. The largest solar power system on a school in New Zealand was officially opened in a ceremony in February 2019 at Kaitaia College.
