

New Zealand suppliers of solar panels in

Who is Solar Partners New Zealand?

We've got the power for you! Solar Partners New Zealand, the country's premier solar system wholesaler, trainer and business support hub. If you resell or install solar, we're here to support you with quality products, training and valuable partnerships.

Do solar panels work in New Zealand?

Absolutely! New Zealand has abundant sunshine and generates between 1,700 and 2,100 sunshine hours annually. Some areas, like Nelson and Gisborne, receive as much as 2,400. Solar Panels don't require sunshine; they require daylight, so Solar Panels work year-round, even in the lower South Island.

Where can I get solar training in New Zealand?

New Zealand's only live in-house solar training centre where installers, electricians, builders and resellers nationwide can gain first-hand experience installing solar. We at Solar Partners provide a range of training modules led by industry leaders across all our products.

Who are the leading manufacturers of solar power?

We've partnered with industry leading manufacturers such as Fronius, REC, Victron, Tesla Powerwall, Phono Solar, BYD, Freedom Won, Shoto, Hopergy, S-5! and Tigo to deliver a wide range of solutions to our clients and to meet the needs of domestic, commercial, industrial, off-grid and utility scale solar power solutions.

Are Waikato solar panels a good investment?

The Waikato installation team worked around some atrocious weather conditions to get the panels installed, and up and running, very quickly. Really good value for money. Great team to work with and very happy with the solar and battery systems installed. Great team to work with and very happy with the solar and battery systems installed.
