Nibe energy systems Christmas Island

solutions for over 70 years. Designed to work in colder climates and combined with smart technology, we harness the power of nature to heat your home without it costing the earth.

NIBE Group - an international group with companies and a presence worldwide. We contribute to a lower carbon footprint and better utilisation of energy. We develop, manufacture and market environmentally-friendly, energy-efficient solutions for indoor climate comfort for all types of properties.

With a heat pump from NIBE, you can create a perfect indoor climate by using renewable energy from your local surroundings. It immediately starts to deliver an environmental payback in the form of reduced energy consumption and emissions.

We value our Nordic heritage by reaping the renewable energy of nature, and by combining it with new smart technology we can offer effective solutions that protect people and nature. Our wide range of products provides your home with cooling, heating, ventilation and hot water with minimal impact on the environment - so that together we can ...

The entire indoor climate comfort system can be automated and controlled remotely using NIBE's sustainable digital solutions. Heat pumps save energy even when idle, and the units have active cooling modules that produce excellent air conditioning.
