

Nordex group Tajikistan

Where is Nordex made?

At production facilities in Germany, Spain, Brazil, the US and India, the Group produces nacelles, rotor blades, and concrete towers. The company has offices and branches in more than 30 countries. The holding company, Nordex SE, is listed on the TecDAX and MDAX of the Frankfurt Stock Exchange (ISIN: DE000A0D6554).

Who is Nordex group?

The Nordex Group is one of the world's leading OEMs with 35 years of experience in manufacturing highly efficient wind turbines for global onshore markets.

Where is Nordex active?

Nordex is active in all important growth and volume wind markets with the exception of China. This strong international presence was recently expanded by integrating Acciona Windpower into the Group in 2016. The domestic market of Germany remained the largest sales market for the Group in recent years due to its large volumes.

Is Nordex a Chinese company?

However, the Company continues to be represented in China, particularly on the purchasing side. From a technical perspective, Nordex is focused on developing wind turbines for onshore sites that allow operators to produce environmentally friendly electricity at the lowest possible cost (Cost of Energy - COE) in their respective regions.

What services does Nordex offer?

The Group concentrates on developing and producing complete systems, including the control software as well as the main core components, and on offering related services. Services rendered by Nordex for a specific project range from the mere delivery of the wind turbines to turnkey construction of a complete project (Turnkey contracts).

Why should you choose Nordex group?

The global trend toward renewable energy is moving forward - and the Nordex Group is an essential part of this. Our focus is on making renewable energy as cheap as possible, and that means to continuously reducing the cost of energy (COE) from newly-installed wind power turbines.
