

What is the Ocean Grazer?

The Ocean Grazer is a conceptual energy collection platform, projected to house several renewable energy generation modules, including wave energy, solar energy and wind energy.

What is the Ocean Grazer energy converter?

Unveiled in 2021, the technology can be deployed around offshore wind farms or floating solar, to store excess power generated. The operating principle of the Ocean Grazer energy converter is to store potential energy by creating a hydraulic head, due to the differences in pressure between two reservoirs.

What is Ocean Grazer doing in Sellingerbeetse?

Ocean Grazer is working on developing a pilot project for sustainable energy storage based on hydropower in Sellingerbeetse. This is the first large-scale project featuring Ocean Grazer's underground energy storage technology. Read more below about Ocean Grazer's pilot project in Sellingerbeetse.

Is Ocean Grazer ready for the energy transition?

Frits Blik, CEO of Ocean Grazer, said: "This prototype has already proved the technical functioning and efficiency of the Ocean Battery. Now it's time for the next step. The energy transition will not work if we cannot store energy. We are ready, and so is the market".

Is Ocean Grazer a 'missing link' of energy transition?

Ocean Grazer has completed the test phase of its Ocean Battery storage system, deemed as a 'missing link' of the energy transition trend.

Who develops the Ocean Grazer platform?

The development of the Ocean Grazer platform has been carried out by the University of Groningen in the Netherlands, since 2014, and now by a spin-out company Ocean Grazer BV.

We were founded in 1997 and are headquartered in the beautiful Isle of Man. In 2016 we moved into our newly renovated office, opened by His Excellency Sir Richard Gozney, the Lieutenant Governor. Our custom-designed office space enables us to provide expert, worldwide support to all of our clients.

Ocean Grazer is a fresh and innovative start-up located next to the main station in Groningen. With our Ocean Battery we make an important contribution to one of the biggest challenges in the energy transition: the storage of sustainable energy. The Ocean Grazer started as a spin-off from the University of Groningen and has already won several ...
