

Why should you choose Oman solar?

At Oman Solar, we have latest technology by which we can use NATURAL RESOURCES and convert the NATURAL energy into POWER (ELECTRICAL ENERGY). The solar photovoltaic energy is a most viable solution for reliable and remote application in the region because of the availability of the sun for almost 365 days in the year.

Is Oman a good place to invest in solar power?

The recommendations form part of the "Oman Solar investment opportunities" report, the latest work from SolarPower Europe's Global Markets unit. The report said that Oman's current electricity mix is primarily based on natural gas, accounting for 96% (38 TWh) of power generation in 2022, compared to solar at 3.8% (1.5 TWh).

How can Oman achieve net-zero energy goals?

SolarPower Europe has urged Oman to pursue greater integration of renewable energy, liberalize its market structure, and optimize grid infrastructure to meet its ambitious net-zero targets. The recommendations form part of the "Oman Solar investment opportunities" report, the latest work from SolarPower Europe's Global Markets unit.

Who is OSS solar?

OSS is one of the oldest company in entire GCC region, over the three decades, we have installed many successful solar power systems at critical, remote, and inaccessible locations and delivered power and energy to homes and business houses across the Oman, UAE, MENA and SEA region.
