

## **Palestine complete solar system for home price in**

Because we work with many NGO's on large scale projects, we have the contacts and resources to get the best prices on smaller units for household use. This allows us to provide more economical units for homes in underserved communities and for special needs.

Utilizing of grid connected PV systems on roofs of residential houses started to spread in Palestine since six years due to decreasing the PV price and creation of governmental regulations supporting the use of renewable energy.

We believe in the necessity of providing renewable energy solutions at fair and competitive prices to Palestinian citizens, companies and distributors, in a way that contributes to reducing the cost of electricity consumption.
