Does genetry solar inverter switch from 240V to 120V?

This is a highly valuable feature for RV customers who may go from a 240v shore connection one day to Grandma's 120v extension cord the next day! No external hardware is required: a split-phase output Genetry Solar inverter will automatically switch between 120v input or 240v input as needed!

Are genetry solar inverters white-labeled?

Genetry Solar inverters are completely designed in-house by Genetry Solar in the U.S.A.; they are not "white-labeled" (rebranded) products designed by a different company. This means that we are able to provide literally unparalleled technical support, not to mention providing features not found anywhere else in the low-frequency inverter market.

Can genetry solar inverters be updated via WiFi?

Genetry Solar inverters can be updated via WiFi, both via normal Internet connection, or via direct upload. The Direct Upload update feature also allows you to update inverters remotely deployed in areas with no Internet connection.

What is a genetry solar inverter?
