

Panel solar grande Palau

What is a solar PV project in Palau?

With a capacity of 15.3 MWp solar PV and 12.9 MWh BESS, the project supports Palau's goal of achieving a 45% renewable energy share by 2025. The project's total investment of USD 29 million contributes to Palau's energy independence, clean power generation, carbon emissions reduction, and local employment opportunities.

Who is launching Palau's first solar PV + battery energy storage system?

Alternergy Holdings Corp. and its subsidiary Solar Pacific Energy Corporation have inaugurated Palau's first solar PV + battery energy storage system (BESS) project, marking a significant milestone in the region.

How many people benefited from Palau solar PV & Bess project?

"The project provided employment to about 300 people during construction," he said. The Palau Solar PV + BESS project, with a capacity of 15.3 MWp solar PV and 12.9 MWh BESS, is one of the biggest foreign direct investments in the country with a total project cost of USD 29 million.

With 100 MW of power generation and distribution capacity, the Armonia microgrid will enable Palau to meet its 45%-by-2025 renewable energy goal five years ahead of schedule, as well as offer electricity at the lowest rates in Palau's history, according to the project partners.
