

Does Penghui have a strong energy storage industry?

At the same time, Penghui's revenue in energy storage has nearly doubled. The surge in income in the field of energy storage is inseparable from the growth of household energy storage, communications energy storage and other sub-sectors.

What is Penghui energy?

The main business of Penghui Energy is the research and development, production and sales of lithium-ion batteries, primary batteries, and nickel-metal hydride batteries.

Will Penghui energy build a 20GWh energy storage battery project?

On the same day, Penghui Energy disclosed that in order to further improve the company's production capacity layout and enhance the influence and comprehensive competitiveness of the company's energy storage business, it plans to build a 20GWh energy storage battery project in the Zhizao New City of Quzhou City, Zhejiang Province.

How did Penghui energy perform in the first quarter?

In fact, in the first quarter of this year, in addition to the field of power batteries, Penghui Energy has achieved significant income growth in many areas, such as light power, energy storage, consumer digital and so on. Among them, in the field of light power products, Penghui energy revenue increased more than fourfold in the first quarter.

Who is Liuzhou Penghui energy technology company?

The project is implemented by Liuzhou Penghui Energy Technology Co., Ltd., a wholly-owned subsidiary of the company, with a total investment of 1.2 billion yuan and a construction period of 15 months. It mainly produces lithium-ion batteries and lithium battery systems for energy storage and new energy.

How much yuan will be invested in Penghui smart energy storage?

Another 800 million yuan is planned to be invested in the Penghui smart energy storage and power battery manufacturing base project. The project is implemented by Liuzhou Penghui Energy Technology Co., Ltd., a wholly-owned subsidiary of the company, with a total investment of 1.2 billion yuan and a construction period of 15 months.
