

# Philippines dale power solutions ltd

What we've been able to achieve working with Dale Power Solutions is effectively a 2MW HV power generation unit in a 24ft container. This container can be installed in modular fashion using 12 tonne lifts which are able to use the platform crane to achieve installation. Andrew Ennis, Senior Rotating Equipment Engineer, Shell Global Solutions UK

As a solutions business, teamwork is our bedrock. From our design and project management teams to the engineering team and customer service, all our teams work together to not only deliver the best customer experience possible but to support their colleagues both day-to-day and with their long-term career aspirations.

After the death of John Ellis in 1968, Leonard Dale of Dale Electric GB Ltd acquired the company and developed DC secure power systems for the North Sea Oilfields market. In the early 1970s, Erskine battery chargers became essential for maintaining generator start batteries, providing backup during mains failures to support lighting, electronic ...
