

Photovoltaic Sheep Shed

Are solar panels good for sheep?

Sheep living in pasture with solar panels benefit from shade in hot weather and more nutritious grass- and they stop weeds from growing on the panels. Sheep living among rows of solar panels spend more time grazing, benefit from more nutritious food, rest more and appear to experience less heat stress, compared with nearby sheep in empty fields.

Can a solar PV system power a shed?

If you simply want the solar energy to power a handful of electrical appliances in a shed, a small solar PV system will suffice. However, if you're looking to power an outhouse for guest accommodation or direct energy back to your home, more solar panels will be needed.

Can sheep be used in a solar park?

Although they have had to adapt their sheep system to fit into the solar park, it is an arrangement that works well, says Mrs Morgan, who explains that the sheep are used as "lawn mowers" to manage grass while producing lambs. Are 'photovoltaic sheep' a good investment in China?

According to Chen Kelong, deputy chief of the Academy of Plateau Science and Sustainability at the Qinghai Normal University, "photovoltaic sheep" serve as a great innovation in promoting economic and sustainable development in China. So far, 12 "photovoltaic sheep farms" have been built in Hainan prefecture.

How many sheep are in a solar park?

The solar park is stocked at 12 sheep/ha in the summer. This drops to 5/ha over the winter months. It took a while for the sheep to adjust to the panels. "We recently bought in 75 ewe lamb replacements and once we had finished quarantining them, we ran them with the ewes so they would adapt to the different environment," explains Mrs Morgan.

How many 'photovoltaic sheep farms' are there in Hainan?

So far, 12 "photovoltaic sheep farms" have been built in Hainan prefecture. In 2023 alone, these farms sold 13,000 "photovoltaic sheep," bringing herdsmen a total income of 11 million yuan, according to the department of publicity of the prefectural government.
