

# Photovoltaic panels instead of roofs

What are the best alternatives to rooftop solar panels?

We'll break down the top alternatives to rooftop solar panels - community solar, ground-mounted solar, solar sheds, and solar shingles. Community solar is one of the best ways to enjoy the benefits of solar without putting solar equipment on your property, and it's an especially good option for renters.

Are in-roof solar panels a complete roofing solution?

Although sometimes mistakenly referred to as solar roof tiles, integrated solar panels are not designed to look like tiles or slates, so they aren't generally a complete roofing solution. So, when installing in-roof solar panels, you'll still need to account for other materials in your planning and calculations of in-roof solar panels costs.

Are integrated solar panels better than on-roof solar panels?

Whereas on-roof solar panels are known to be an eye sore, integrated solar panels are the modern-day solution. As the solar panels sit in-roof, they appear more streamlined and blend in more seamlessly, making integrated solar panels the more attractive option. Furthermore, In-roof Solar Panels can even be retrofitted to modernise your home.

Are solar panels a good choice for a new roof?

In-roof solar panels are the obvious choice when building a new property or when roof refurbishment works are being undertaken. The initial choice is whether to use a complete solar roof system or a system in which the solar takes up only a part of the roof.

Are solar roof tiles a viable alternative to solar panels?

Solar panels are becoming a more and more common sight on UK homes as the technology becomes both more affordable and more effective at generating renewable energy. However, a newer technology known as solar roof tiles has been growing in popularity in the US as an alternative to panels, and the UK market looks set to go the same way.

What is the difference between an in-roof solar panel & a traditional solar panel?

The one key difference between an in-roof solar panel and a traditional on-roof solar panel is usually weight, with in-roof panels being about half as heavy (around 10kg instead of 20kg). However, the trade-off for lighter solar panels tends to be a shorter product warranty.

Solar tiles in the UK cost between £13,000 and £16,200 for the average home while regular solar panels can cost between £2,500 - £10,500.; Solar roof tiles come in a ...
