

What is the European solar PV industry alliance?

To accelerate solar photovoltaic(solar PV) deployment in the EU,the European Solar PV Industry Alliance was launched in 2022 to develop an EU solar PV industrial ecosystem to help secure and diversify supplies of solar PVs.

What is the solar photovoltaic industry alliance?

On the 11th of October the Commission formally endorsed a new Solar Photovoltaic Industry Alliance, with the aim of scaling up manufacturing technologies of innovative solar photovoltaic products and components in the EU.

How does the EU support the European solar PV manufacturing sector?

Over the last years,the EU has taken initiatives to strengthen its support to the European solar PV manufacturing sector,which includes several globally competitive companies in several steps of the value chain.

What is the EU solar energy strategy?

Published as part of the plan,the EU solar energy strategy aims to deploy over 320 GW of solar PV by 2025,more than doubling the 2020 output,and almost 600 GW by 2030. To meet these objectives,the strategy The European Solar Photovoltaic Industry Alliance aims for resilience and strategic autonomy across the European value chain.

Who can join the solar PV Alliance?

The alliance is open to all public and private entitieswith relevant activities in the area of solar PV,including companies and associations,social partners,education and training providers,research and technology organisations,investors,civil society organisations,and representatives of EU countries,regional and public authorities.

What is the solar PV Alliance?

Acting as a forum,the Alliance will bring together industrial actors,research institutes,social partners,consumer associations,NGOs and other stakeholders with an interest in the solar PV sector.

Solar energy is a type of inexhaustible energy, which has great and far-reaching significance for meeting the energy needs of human beings. It is estimated that the average ...

The main aim of the Economic and Investment Plan is to spur the long-term economic ... The EU will promote cooperation in digital education globally through the renewed Digital Education ...

From the perspective of investment risk as borne by institutional investors [37], large-scale photovoltaic projects remain the primary form of risk exposure in China [30]. China ...
