

Photovoltaic system installation Saint Lucia

August, 2023 an ending on the 1st day of August, 2025, a supply of components of photovoltaic systems intended solely for harnessing solar power under the following Customs Tariff Headings -- (A) 8502.39 Complete system; (B) 8541.40 Solar panels; (C) 8504.40 Charge controllers and inverters; (D) 8536.70 MC 4 connectors;

In order to install a Solar Photovoltaic (PV) system in St. Lucia you must first get permission from the National Utility Regulatory Commission (NURC). The applicant or a representative on their behalf is required to submit an application to the NURC.

The next steps in the process is a Tariff Study to identify a suitable tariff for commercial PV systems, a public information and education campaign on small PV systems, and the installation of PV systems at LUCELEC's various premises. One system has already been installed at the Customer Service Outlet in Vieux Fort.

Sol-Lucian is a Saint Lucia based Electric Solar Renewable Energy company that has developed a bold approach to reducing the cost of electric utility, through the provision of products and services that include installations of GRID-TIED and STAND-ALONE photovoltaic (PV) systems.

In the sun-soaked landscapes of St. Lucia and the Caribbean, a brighter, more sustainable energy future is dawning. With Ecocarib, your trusted partner in renewable energy solutions, we're here to illuminate the path to clean, reliable power through solar photovoltaic (PV) systems.

Collaborating with Commercial, Domestic, and Government entities, we have pioneered installations of Photovoltaic Systems, Solar Hybrid AC Units, and Solar Water Heating Systems. By advocating the concept of "Going Green," we aim to reduce the Carbon Footprint that plagues our world, one installation at a time.

By seamlessly integrating solar PV systems into businesses, Eco Carib ensures a smooth transition to clean energy. Financial Benefits for Businesses. ...
