Deep Sea Mining, with Pliant Energy Systems 18 Jan 2021. I followed up with Benjamin Pietro Filardo, founder of Pliant Energy Systems and NACROM, the North American Consortium for Responsible Ocean Mining. Pietro talks about the deep sea mining industry, an untapped market with a massive potential for growth. Pietro discusses the current ...

Pliant Energy Systems proposes that the ocean, especially the deep ocean, is where autonomy will come into its own for two main reasons. Firstly, without GPS, radio, or any other high-bandwidth communications, you don't have a choice. ...
