

Wilson Power Solutions specializes in energy infrastructure solutions, focusing on the manufacturing of power and distribution transformers within the energy sector. The company offers a range of products including power transformers, distribution transformers, switchgear products, and associated equipment, all designed to provide reliable and ...

The team at Wilson Power Solutions have shown strong technical expertise and customer service" Technical Standards Manager. Tesco "Just a quick word to say how professional the lads were this week when repairing our HV transformers. Both worked extremely hard in very harsh conditions and are a credit to RWD. I'd appreciate it if you passed ...

With Bumpers BESS site online, Wilson Power Solutions has now supplied transformers to over 2.2GW/3.7GWh of Battery Energy Storage Projects across the country, aligning with the company's vision statement to lead and accelerate the transition towards net zero in electrical networks.

Wilson Power Solutions was shortlisted two weeks ago for the Networks and Connections Award as part of the Solar & Storage Live Awards. The award ceremony took place on Wednesday 19th Oct at a beautiful gala dinner in a room full of lively, enthusiastic, hard-working people. Although we are often very confident in the quality [...]

The Buckinghamshire BESS's energisation this month marks another successful collaboration between Harmony Energy and Wilson Power Solutions, meaning that the three largest operational BESS facilities in Europe (by MWh) utilise Wilson Power Solutions transformers following Pillswood BESS facility's energisation in November 2022. For this ...

Reliable and cost effective solutions for sites with MV/HV supply. Voltage Regulation (or Voltage Optimisation) is an energy-saving technique that systematically reduces the supply voltage to a site in order to reduce energy losses in equipment.. We offer Voltage Regulation solutions to suit your specific power needs: From ultimate efficient amorphous core supply transformers to ...

Wilson Power Solutions supplied the site with Forty Tier 2 compliant 2.8MVA 33kV/480V Wilson T2 Ecotrans Distribution Transformers&#174;. And to blend in with the white Tesla Megapacks, ...

Wilson Power Solutions is a UK based & owned power and distribution transformer manufacturer able to supply transformers up to 1500MVA, including Power Auto Transformers at voltages up to 1200kV. With capabilities to work within war torn countries ...

Erika Wilson, Managing Director of Wilson Power Solutions, shared insights into her leadership journey and

the company's evolution in The Times during Family Business Week. The company, founded by her grandfather Richard Wilson in 1946, specialises in energy-efficient transformers crucial for managing voltage in power grids.

Wilson Power Solutions supplied the site with Forty Tier 2 compliant 2.8MVA 33kV/480V Wilson T2 Ecotrans Distribution Transformers. And to blend in with the white Tesla Megapacks, Wilson Power Solutions coated the transformers in the trademark Tesla colour.

Wilson Power Solutions has announced that Transformers manufactured by a Leeds firm are playing a critical role in Europe's largest battery energy storage system (BESS) by megawatt hours, which has just come ...

This milestone, powered by Wilson Power Solutions' transformers connected to Tesla Megapacks, marks a significant leap in sustainable energy infrastructure. Located in Essex, the Clay Tye site boasts a substantial capacity of 99MW/198MWh, solidifying its position as one of Europe's leading operational projects of its kind. With this impressive ...

The team at Wilson Power Solutions have shown strong technical expertise and customer service. Technical Standards Manager. Tesco "Just a quick word to say how professional the lads were this week when repairing our HV transformers. ...

Wilson Power Solutions has announced that Transformers manufactured by a Leeds firm are playing a critical role in Europe's largest battery energy storage system (BESS) by megawatt hours, which has just come online in East Yorkshire.

This milestone, powered by Wilson Power Solutions' transformers connected to Tesla Megapacks, marks a significant leap in sustainable energy infrastructure. Located in Essex, the Clay Tye site boasts a substantial capacity of 99MW/198MWh, solidifying its position as one of Europe's leading operational projects of its kind.

Wilson Power Solutions combines two highly complementary power companies and three generations of a remarkable power engineering family. Family run in the third generation, we advocate 'old fashioned' values like honesty, reliability and integrity. Passionate about the environment we are the first UK power engineers to be certified CarbonNeutral.
