

Power to x Maldives

Do you need a power plug in the Maldives?

In the Maldives, power plugs and sockets of type D and type G are mainly used. For most travelers from regions where these types are not standard, it's advisable to carry a universal power plug adapter that can accommodate these types. This ensures you can charge your devices seamlessly no matter where you are in the Maldives.

What voltage does Maldives use?

The Maldives operates on a 230V supply voltage and a frequency of 50Hz. This is important information for you since the compatibility of your personal electronic devices with this voltage and frequency determines if you'll need a voltage converter or transformer to safely use your devices. What power source does Maldives use?

What type of plug does Maldives use?

Understanding Plug Types: The Maldives primarily uses types D and G sockets, but others can also be found. Ensure your travel adapter covers these types. A universal travel adapter usually includes these and is a safe bet for wide compatibility.

What do you need to travel to the Maldives?

In a nutshell, what you need to know for your upcoming trip: The Maldives primarily uses Type D and G sockets, with a voltage of 230V and a frequency of 50Hz. A universal power plug adapter and, depending on your device's requirements, a voltage converter are essential travel companions.

SUMMARY: To stay charged while on your trip, you do need a power adapter for The Maldives, but you might also need a power strip, long charging cables, and possibly a travel voltage converter if your devices aren't dual voltage. If this sounds overwhelming, read further to find out exactly what you need to bring.
