

Price of large solar panels

How much do solar panels cost in the UK?

The most common type of system is the 4kW solar system, which costs between £5,000 - £6,000. It can save the average household about £660 per year, provided that they have a decent number of sunlight hours and are installed on a south-facing roof. In 2024, the price of solar panels in the UK can vary depending on several factors.

How much does a solar panel system cost?

The average package 3kW or 4kW solar panel system with battery, usually comes with a 4kW to 14kW battery. The average price of a solar panel system and battery ranges from £8,500 - £14,000 but can be considerably higher depending on the battery. If you want to include a storage solution you are going to have to pay more upfront.

What costs should you consider before installing solar panels?

There are two other potential costs you should look into before installing solar panels, these are maintenance costs and repair costs.

How much does a solar battery cost?

A battery means you can store excess energy produced by your solar system, which you can then use at night, or to sell back to the grid. Solar batteries can cost anywhere between £1,000 and £4,000, depending on the size you require. Prices correct as of October 2024. The size and complexity of an installation will dictate the labour costs.

Why do solar panels cost so much?

Solar panel quality significantly impacts their cost. Higher-quality panels, made with superior materials and advanced technology, offer greater efficiency, longer lifespans, and better warranties. This higher upfront cost is justified by increased energy production and durability, leading to greater long-term savings and reliability.

How much does it cost to clean solar panels?

However, if you notice your solar panels becoming dirty - for example, bird droppings, or dust building up on them during a dry, hot summer - you should consider getting them cleaned. Solar panel cleaning by a professional will cost around £100, but you can do it yourself with a hose. How much do solar batteries cost?
