

# Price of solar panel battery Svalbard and Jan Mayen

Where are Svalbard and Jan Mayen located?

The islands are located north and northwest of Norway, within the southern limits of Arctic sea ice -- the northernmost point of Svalbard is within a 620 mi (1,000 km) of the North Pole. Svalbard is approximately 24,570 square mi (63,000 square km); Jan Mayen is approximately 145 square mi (373 square km).

Why are solar PPA prices so high in Europe?

High development costs and an unstable regulatory environment have increased solar PPA prices in Europe to a new high of EUR76.84 in Q4 2022.

Which European markets have increased solar PPA prices in Q4 2022?

Emerging European markets like Greece and Hungary have had an increased interest in solar PPA during Q4 2022. Image: juwi Hellas. High development costs and an unstable regulatory environment have increased average solar power purchase agreement (PPA) prices in Europe to a new high of EUR76.84 (US\$82.4)/MWh in Q4 2022.

Where is a solar farm located in Norway?

State-owned energy company Store Norske Energi installed the solar and storage at Isfjord Radio on the island of Spitsbergen, the largest and the only permanently populated island in the archipelago, and the solar farm is expected to come online tomorrow.

Does Isfjord Radio have a solar farm?

The off-grid Isfjord Radio's new ground-mounted solar farm joins its rooftop solar, which was installed earlier this year. The ground-mounted solar farm sits at 78° north, which makes it the world's northernmost solar farm. Store Norske hasn't yet provided details on the specs of the solar panels or battery storage.

Why is it so difficult to sell solar products in Europe?

The group expresses concern that a dramatic fall in the price of solar manufacturing and production, which has fallen by 25% in recent months, has made it "extremely difficult" for European solar manufacturers to sell their products.

In the fourth quarter of 2023, the average price of a solar PPA signed in North America reached US\$52.69/MWh, the highest on record, and it was the second consecutive quarter in which the...

Both Svalbard and Jan Mayen consist almost entirely of Arctic wilderness, such as at Bellsund in Svalbard.. Svalbard is an archipelago in the Arctic about midway between mainland Norway and the North Pole. The group of islands range from 74° to 81° north latitude, and from 10° to 35° east longitude. [1] [2] The area is 61,022 square kilometres (23,561 sq mi) and there were 2,595 ...
