How much money does Puerto Rico have to pay for solar?

Up to \$190 million is available to Puerto Rico's Housing Administration and a private company to pay for solar and battery installations in public housing common areas and subsidized, multifamily housing properties. Another \$175 million is available for certain healthcare and dialysis centers.

Why did Puerto Rico get a power outage?

The announcement comes as the U.S. territory continues to struggle with chronic power outages that have worsened since Hurricane Maria pummeled the island as a powerful Category 4 storm in 2017, razing the electric grid. The outages also are blamed on a lack of maintenance and investment in its electric grid for decades.
