Red Rock Power Incorporated was founded in 1977. It is a family owned firm based in Havre, Montana. We specialize in the construction of high voltage power lines, and substations. We offer a wide variety of services including hot line pole change outs; re-conductoring; fiber optics; underground; retirement and emergency storm repair work.

Red Rock Power Limited is a European subsidiary of SDIC Power, a global power company based in Beijing. SDIC operates hydropower, wind farms, photovoltaic and coal fired power plants, with a total installed capacity of approximately 34.36GW - 54% of which is from renewable generation.

The wind farm will power up to 35,000 homes each year and is expected to generate 3.5 million MWh of electricity in its lifetime. Afton was acquired by Red Rock Renewables in Autumn 2018 when construction was completed. This marks SDIC Power's first onshore and fully owned, operating development in Europe.

Redrock power Germany

Guy Madgwick, Red Rock Power's CEO, said: "Securing a partner to enable us to capitalise on our existing offshore wind development expertise and levelling-up our offshore construction experience ahead of the ScotWind bid was a key priority for us this year.
