

What can Altrans energies do for You?

Looking forward to proposing it to our partners! Altrans Energies pioneers advanced solutions in global and predictive monitoring seamlessly integrating innovative sensing and quantum-inspired AI algorithms to enhance the resilience of grids and to reduce their maintenance cost.

Did Russia's renewed attacks on energy infrastructure damage Ukraine's nuclear reactors?

The agency said after Friday's attack that five of Ukraine's nine operating nuclear reactors had to reduce their power output because of Russia's "renewed attacks on energy infrastructure." The first reports of damage after the assault came from western Ukraine.

Is Russia targeting Ukraine's energy facilities?

The facility has been repeatedly targeted by Russian airstrikes. Mauricio Lima for The New York Times Russia launched a missile attack on Ukraine's energy infrastructure early Friday, in an assault that President Volodymyr Zelensky described as "one of the largest strikes" on his country's power facilities.

Is the energy sector under a massive attack in Ukraine?

"The enemy continues its terror. Once again, the energy sector across Ukraine is under massive attack," Ukrainian energy minister German Halushchenko said on his official Facebook page. The extent of the damage had yet to be clarified, he said, while urging people to remain in shelters.

How much of Ukraine's energy infrastructure has been destroyed?

About half of Ukraine's energy infrastructure has been destroyed. Writing on social media, Ukraine's foreign minister Andrii Sybiha also reiterated a call for more aid. He said: "Russia aims to deprive us of energy. Instead, we must deprive it of the means of terror."

Is Russia trying to overwhelm Ukraine's air defences?

Western allies have provided Ukraine with air defence systems to help it protect critical infrastructure, but Russia has sought to overwhelm the air defences with combined strikes involving big numbers of missiles and drones. "It's crazy what's taking place. It's crazy. I disagree very vehemently with sending missiles hundreds of miles into Russia."

Altrans Energies, pour des réseaux électriques sans pannes # réseaux électriques # leur # innovation D#tecter les signes pr#curseurs de pannes # quelques mètres pr#s, pour un coût divis# par 20, c'est la promesse faite par Altrans Energies, leur # des Innotroph#es 2022 en catégorie start-up, aux exploitants de réseaux de distribution électrique.

Altrans Energies pioneers advanced solutions in global and predictive monitoring seamlessly integrating innovative sensing and quantum-inspired AI algorithms to enhance the resilience of grids and to reduce their maintenance cost. Altrans Energies pioneers advanced solutions in global and predictive monitoring seamlessly integrating innovative ...

The active sensing developed by Altrans Energies is a concept that exploits the propagation of a known emitted waveform. The physics of wave propagation through dispersive media form the foundation for a powerful approach to identifying and localizing instabilities, anomalies, and pre-faults in power grids and pipelines.

Altrans Energy Global, in partnership with Altrans Energies SAS, offers patented, 24/7 energy surveillance technologies. Established in 2020 in Grenoble, France, our expertise is backed by over 15 years of research and more than 40 ...
