

Saint Barthélemy solar inverter for sale

Two common types of solar inverters in Australia are string and micro inverters. String inverters are a common type of solar power inverter for households - generally ranging from 1.5 to 5 kilowatts (KW). They are a single unit connected to a "string" of solar panels. Each string is then connected into a separate input on the inverter.

Solar equipment distributors trust Phocos for quality solar products and competitive pricing to protect reputations and retain customers. Call us today! ...
