

Seg solar inc American Samoa

Who is SEG Solar?

SEG is recognized as one of the top suppliers of solar PV modules in the industry. SEG Solar is known for its high-efficiency modules, which are installed in power plants, as well as residential, commercial, and industrial projects all across North America.

Is SEG solar a good brand?

SEG Solar has been honored as a Top Performer by PVEL for two consecutive years, earned a Silver Medal in the EcoVadis CSR rating, and is ranked as one of the Top 10 Solar Panel Brands serving the US market by SolarReviews.

Where are SEG solar panels made?

The company also has factories in South Africa and China. However, SEG Solar is building a solar panel manufacturing plant in Houston, Texas, which is expected to be operational by mid-2023. This would bring their manufacturing back to the United States after closing their Mississippi plant in the late 2010s.

Are SEG solar panels Tier 1?

In addition to gigawatts of installed panels operating across the world, SEG panels have achieved Tier 1 designation from Bloomberg New Energy Finance (BNEF). BNEF's Tier 1 designation is a marker of how bankable a project is that utilizes a brand's specific panels for large-scale utility solar installations.

How efficient are SEG solar panels?

All of the panels on SEG's website currently have efficiencies between 21.48% and 22.53%. That puts their panels just above average in terms of efficiency. SEG's current offerings utilize half-cut mono PERC cells. This technology reduces the impact high temperatures and partial shade have on performance and also improves efficiency.

Do SEG solar panels have a warranty?

All of SEG Solar's current panels are protected with a 15-year product warranty. That means if there are certain issues relating to the panels' manufacturing or components, you should be able to get them repaired or replaced at no cost. Additionally, the panels are protected with a 25- or 30-year production warranty.

SEG Solar (known outside of America as Seraphim), has been a global manufacturer of solar panels since 2011. And with over 14 GW of their solar panels installed in over 40 countries, they're a popular one at that.

Many of you might not have heard of SEG Solar, but SEG Solar is a really unique solar module manufacturer that traverses continents and is one of the most unique success stories in solar that I've heard, in the past decade and a half.
