Located about 90 miles north of San Francisco, the center encompasses three distinct elements: The 5000 square foot Real Goods retail store, the Solar Living Center- a non-profit educational and research division

Real Goods in Hopland is a solar educational center that was built in the mid 1990"s. Their original history dates back to the 1970"s; founder John Schaeffer started Real Goods in the town of Willits (and he actually sold the first solar ...

The Real Goods building and site plan are designed so that an awareness of the elements of place - sun, wind, water and vegetation - becomes second nature. The Retail Showroom building features straw-bale wall construction, sustainably harvested lumber, and grid-intertied wind and photovoltaic energy production.

A Place in the Sun starts with stories about Real Goods. It then follows the evolution of the Center, from its beginnings as the kernel of an idea, through its evolution to a functioning retail and educational space, and then into the future with a vision for more to come.

by John Schaeffer and the collaborative design/construction team. Chelsea Green Publishing Co., White River Junction, Vermont, 1997. Paperback, 190 pages, \$24.95. The new retail store and educational center of the renewable energy and healthy living company Real Goods Trading Co. is, in many ways, a revolutionary building (see Case Study, EBN Vol. 5, ...
