The pilot program, targeted for a three-week rollout, will allow consumers to generate their own clean energy and contribute excess power back to the grid. The Minister also requested GEBE to propose, within two weeks, a competitive standardized Buy-back Rate for excess energy generated by participants in the pilot program.

This document was developed by the National Renewable Energy Laboratory with support provided by the Caribbean Center for Renewable Energy and Energy Efficiency. The information included in this document is for general information purposes only.

Following the critical meeting in Parliament on June 25, 2024, where solutions to the GEBE energy crisis were discussed, Prime Minister Dr. Luc Mercelina addresses the citizens of Sint Maarten with a detailed timeline for the arrival and operationalization of the 10MW Container generators.

This profile provides a snapshot of the energy landscape of the northeast Caribbean island Saint Martin. The island is divided between two nations, France in the north (Saint-Martin) and the Netherlands in the south (Sint Maarten).
