Available in 6.2kW, 8kW, 10kW, 15kW, 20kW, and 25kW power systems. Specifically designed for mounting on the top of truck. One-piece generator tray assembly includes integrated hydraulic fluid reservoir. Tray assembly designed for easy separation of components for custom installations. Power system includes heavy-duty piston pump.

About Smart Power - hydraulic generators Smart Power Systems began making hydraulic generators for the fire industry in 1995. Initial systems were open-framed basic systems ranging from 5.5kW to 10kW. Smartpower introduced the Top Mount series, specifically designed to be mounted on the top of a vehicle. This innovative design remains a Smart Power staple today.

The Smart Power System (SPS) doesn't require an electrician and simply plugs into a standard wall socket. It is designed to work inside your home or business providing electricity if the power goes off. Devices plugged into the SPS are protected from damaging surges and spikes.

We supply 12V 100Ah Deep Cycle Gel batteries for the Smart Power Systems on EcoDepot. The SPS-1000 can typically run a modern flat screen LCD TV(100W), a laptop(50W), a DSTV decoder(50W) and a low energy lamp(20W) for about 10 hours. All devices plugged into the SPS-1000 are protected from damaging surges and spikes.

The SPS 1000 is a 24V machine and needs TWO 12V battery wired in series. The battery compartment is sized for TWO standard 100Ah batteries - back to back. It is compatible with most deep cycle batteries, e.g. Lead acid, GEL, AGM.

unidad smart-ups de apc, 1000 va, con pantalla lcd, 230v. - dimensiones de altura maxima 219mm, 21.9cm - dimensiones de anchura maxima 171mm, 17.1cm - dimensiones de profundidad maxima 439mm, 43.9cm - color negro - potencia salida: 700w / 1 kva - tecnologia: línea interactiva - salidas: iram (6) - entrada: iec c14, iram 2073

Just want to take a post to appreciate my Smart Power System SPS-600, it's ugly, it's loud, but damn this thing is dependable and tough. I think I paid R6000 for it, without the battery, it hasn't given me a single issue once in the two years I've owned it. So shout out to Branson Holdings in the...

The Smart Power SPS-1000 Battery Backup Power Supply easily connects to a standard wall socket and is designed to instantly supply your home or workplace with electricity when your power goes off. *Courier delivery starts on 4th of November 2019 - Order now to ...

o The system will charge the battery automatically and power your appliances using solar or mains electricity. When fully charged, the battery capacity display shows four bars and maintains a float charge. (NB. the use of solar panels is optional.) o If a power cut happens the SPS will immediately switch to battery power.
