What do you mean by solar water heater. Is it the solar panels for heating water, or does the power generated heat it using immersion elements? Reason I ask is I have a large wood boiler in my shed with a 1000l "buffer tank". Always wondered if I got solar PV panels I could set excess power to heat immersion elements for home heating.

With an initially planned capacity of approximately 61 MWp, the solar farm has been upgraded to 79 MWp. The solar farm will be Neoen's first transmission-connected project in Ireland, and the first utility-scale solar farm in County Limerick. Ballinknockane is scheduled to be energized in mid-2026 and commissioned in the first half of 2027.
